The application packet is also available on our web page www.gcpd.state.ut.us.

The packet contains specific instructions and the required one-page prospectus form which MUST be received at the Council office by the

REQUEST FOR COMMENTS

Short-term Removal of
Limestone from Existing
Pit Proposed

Vernal Ranger District
Ashley National Forest
Uintah County, Utah

The Ashley National Forest is proposing to allow Deseret Generation and Transmission (DG&T) to mine limestone from an existing pit from the Diamond Mountain area. The project area is located 1.8 miles east of U.S. Highway 191 and Diamond Mountain Road (FDR 048) junction.

This proposal should not be confused with the DG&T Minerals Plan of Operations Environmental Assessment that analyzes the long-term proposal that is also currently available for 30-day public comment and review.

This proposed action includes:

- Reopening the 3/4 mile access road from FDR 048 to the mine site. The 3/4 mile of road was pioneered in 1997 when DG&T drove equipment on an approved overland route to remove limestone samples.

- Using heavy equipment (D8 dozer, road grader, dump trucks, front end loader, and water trucks) for mining operations. The proposal is to limit the mine to no more than one acre while DG&T removes up to 3,000 tons of limestone from the existing pit.

The purpose and need for this proposal is to provide a short-term supply of limestone to the Bonanza Power Plant for use in the stack scrubbers. The existing pit was developed in 1997 when DG&T removed limestone for testing. The results of the tests show the limestone is acceptable for industrial use.

If you wish to provide comments on this proposal, please send them to Ashley National Forest, c/o Chauncie Todd, 355 North Vernal Ave., Vernal, UT 84078 by April 12, 1999. In your letter please provide: your name, address, name of the proposal on which comment is given; and specific facts or comments with supporting reasons you believe should be considered in reaching a decision on this proposal.

Comments received in response to this solicitation will be available for public inspection and will be released in their entirety if requested pursuant to the Freedom of Information Act.

If you have any questions or want additional information regarding this proposal, please contact Chauncie Todd, Team Leader, at (435) 789-1181.

Published in the Vernal Express March 24, 1999.

NOTICE OF TRUSTEE'S SALE

The following described property will be sold at public auction to the highest bidder, payable in lawful money

REQUEST FOR COMMENTS

Deseret Generation and
Transmission Minerals
Plan or Operations
Environmental
Assessment

Vernal Ranger District
Ashley National Forest
Uintah County, Utah

The Environmental Assessment (EA) for a proposal to mine limestone from the Diamond Mountain area is available for public review and comment. The project area is located 1.8 miles east of the U.S. Highway 191 and Diamond Mountain Road (FDR 048) junction.

Forest Supervisor Bert Kulesza is the Responsible Official and has identified both Alternatives A and C as the preferred alternatives. Either alternative would result in the development, operation, maintenance, and termination of the limestone mine proposal. Both alternatives would produce 1,300,000 tons of limestone to be used to control stack emissions at the Bonanza Power Plant. The difference between the alternatives is the haul route from the mine to the Power Plant. Alternative A would use U.S. Highway 191 while Alternative C would use FDR 048 and County Route 2804.

Comments must be postmarked or received within 30 days beginning the day following publication of this notice. The Forest Supervisor will consider these comments in reaching his final decision; comments will be addressed in an appendix to the EA. Comments should be sent to Bert Kulesza, Forest Supervisor, 355 N. Vernal Avenue, Vernal, UT 84078, (435) 789-1181. For copies of the EA or for further information please contact Chauncie Todd, Team Leader, (435) 789-1181 or e-mail at ctodd/r4_ashley@fs.fed.us.

Please note that all comments become part of a public record and can be released to others upon request.

Utah Adoption Council holds conference

The Utah Adoption Council will be holding their Adoption Conference, "Building a Family Legacy" on April 8 and 9 at the Holiday Inn, 999 South Main Street, Salt Lake City. This conference is for professionals, prospective adoptive parents, adoptive parents, birth parents and adoptees.

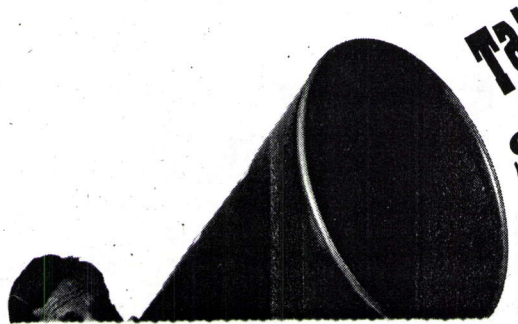

The conference will have a keynote address "The Secrets to the Magic of Adoption," presented by LeRoy Franke, LCSW, Utah State Adoption and Permanency Planning Specialist; and Lorna Franke, M.Ed. principal of Wasatch Elementary School in Clearfield.

The second general session will feature a "Triad Panel." This panel will be comprised of birth parents, adoptive parents and adoptees. There will be several break out sessions that deal with specific areas of adoption.

Utah Adoption Council will also be holding their annual awards banquet on April 8 at 12:30 p.m. Awards will be presented to Bonnie Peters and April Hanrath.

Peters will receive the
